

## WHERE GREAT IDEAS BEGIN

BrilCloud is your very own online storage on the go. Keep all your important data, music, videos, photos and documents in one place and have the freedom to access your files wherever you go. Utilising a network of online storage where data is securely kept, BrilCloud gives you the ability to store your files without the need to install additional storage space on your electronic devices.

BrilCloud is always there for you – with web-based technology, you can access your files anywhere in the world with Internet connection. Computers, tablets and smartphones with any operating system can access BrilCloud using a web browser or native applications (Android and iOS).<sup>1</sup>

*[1] Mobile apps subject to availability.*

## FEATURES:

### • ACCESS YOUR FILES ANYWHERE

BrilCloud allows you to store any types of file, folder, contacts, documents, photos, music, calendars and more while being able to access them anywhere, anytime from your web browser.

### • KEEP YOUR DATA UP TO DATE

BrilCloud keeps all your files synchronised between your devices. With Version Control function, you can systematically keep track and maintain different versions on the go.

### • SHARE YOUR DATA

BrilCloud lets you share all your files directly or via email with the people in your contact list. Securely share your data by utilising the password protection function.

• **INSTANT PREVIEW**

BriCloud makes things easier for you with instant thumbnails of your photos and live streaming of music and videos. You can create a playlist and listen to your music, or watch your video online without the need to download them. With PDF viewer, you can also view and read your documents and ebooks right from your web browser.

• **RESTORE**

With BriCloud, you can make sure you never accidentally lose deleted files. Simply restore the files that were accidentally deleted by selecting them from the Trash Bin and returning them to their rightful place.

• **CALENDARS [WEB BROWSER ONLY]**

BriCloud lets you manage your meetings and deadlines with just a few simple clicks.

• **GALLERIES**

Sharing your photos has never been easier. BriCloud allows you to upload and share your photos and even secure them by setting password protection and an expiry date.
